Patient Centered
Medical Home

The Pediatrician is in!

Kevin B. Norowitz, MD, FAAP

...your Patient-Centered Medical Home

~~~~~

**What is a Patient-Centered Medical Home? What does it mean for you as our patient; what we as your care team will do for you; and what do we expect you to do for your own health?**

*A patient-centered medical home means that you will be surrounded by a dedicated team of health professionals; working together with you, to optimize your health goals using the best evidence-based medicine, education and resources available for you today, thus helping to empower you to take responsibility for your health and give you the self-management support you need to succeed.*

**\*\*Please note** that we now have a patient portal where you will be able to access and retrieve medical records, and so much more, online! Just ask at the front desk to set you up today! Once you are registered, all we need is your email address.

**As your primary care provider, we will:**

- Learn about your child, your family, life situation, and health goals and preferences. Our team will recall your health history every time you seek care and will suggest treatments that make sense for you.
- Take care of any short-term illness, long-term chronic disease, and you or your child's all around well-being.
- Keep you or your child up-to-date on all vaccines and preventative screening tests.
- Connect you or your child with other members of your care teams (specialists, health coaches, etc.) and coordinate care with them as you or your child's health needs change.
- Find appropriate behavioral help as needed (including specialists, support groups etc.).
- Be available to you or your child, after hours, for urgent medical needs. Our regular business hours are:
  - Monday: 10 - 2, 4 - 7
  - Tuesday: 10 - 2, 4 - 7
  - Wednesday: 10 - 2, 4 - 7
  - Thursday: 10 - 2, 4 - 7
  - Friday: 10 - 2
  - Sunday: 10:30 - 12

Should you require medical care outside of these hours, call the office and you will be directed to the after-hours service.

- Notify you of test results in a timely manner.
- Communicate clearly so that all conditions and options are well-understood.
- Listen to your questions and feelings. We will respond promptly to you, and your calls, in a way you understand.
- Help you make the best decisions for your care.
- Give you information about classes, support groups, or other services that can help you learn more about your condition and stay healthy.
- Help you understand your insurance options, should you be uninsured – all children deserve equal care to stay healthy: please contact Gale for more information.

**We trust you, as our patient, to:**

- Know that you are a full partner with us in your care.
- When you join our practice, you will provide us with a complete medical history and inform us if you obtained care outside of the practice. Upon your first visit, we will have you complete new patient forms so that we may obtain all previous records you or your child may have. Should you have any questions about this process, please contact our office manager, Gale, at extension 4.
- Come to each visit with updates on medications, dietary supplements, or remedies you are using, and any questions that you may have.
- Keep scheduled appointments or call to reschedule as early as possible. Scheduled visits cancelled in less than 24 hours or "no-shows" will incur a fee.
- Understand your health condition and what you can do to stay as healthy as possible.
- Work with us to develop and follow a plan that is best for your health. If you have obstacles in fulfilling this plan, please discuss them fully with our staff.
- Take medications, as prescribed.
- Contact us, after hours, **only** if your issue cannot wait until the next work day.
- If possible, contact us before going to the emergency room so someone who knows your medical history can care for you.
- Agree that all health care providers in our healthcare team will receive all information related to your healthcare.
- Learn about your healthcare.

- Learn about your health insurance coverage either from your insurer, or, if you have additional questions about billing, you can contact our office manager, Gale at extension 4.
- Give us feedback to help us improve our care for you.
